ABOUT US

With the foundations of its current form laid in 2013 using more than 70 years of experience in the import and export sector, “**Katre Agro Tarım Dış Ticaret LTD. STI**”, is one of the largest producers and exporters of bird and poultry feed in Turkey.

Keeping track of today's production developments most closely and expanding its product range with ever-increasing production and product quality, **Katre Agro** has adopted the principle of production in line with meeting the needs of its customers and aimed at becoming a pioneer and exemplary company in this sector in the domestic and foreign markets.

Katre Agro, which has added new products to its product range in the transformation of the feed industry to the pet and food sector in line with its sectoral experience since 2013 and years of experience and according to the demands, develops cat and dog food and other pet products and continues to carry out R&D studies on new products without interruption.

The brands offered by Katre Agro to its customers are “**KATZOO**” and “**MY KAJU**”.

Our Mission:

To provide appropriate solutions by correctly determining the service needs and expectations of all our customers and to provide a service beyond the standard service concept by observing customer satisfaction.

To make our customers feel that it is a privilege to work with us by acting in line with the trust our customers placed in us.

To continuously monitor the needs and expectations of our business partners and to bring our working methods to the level that will meet these needs and create continuous added value for our customers.

To show effort in creating a work environment that will make our colleagues happy as a team, to constantly learn and develop our capabilities expected of us.

Our Vision:

To keep up with the continuous technological developments and to analyze the needs in the sector correctly and invest in technological, hardware and human resources accordingly.

To continuously improve our Quality Management System without sacrificing quality under any circumstances, always remembering that every business we do, every method we develop can be better.

PRODUCTION

PRODUCTION & QUALITY

Set up on an area of **40,000 m²** and with an indoors area of **20,000 m²**, the facilities of **Katre Agro** consist of 3 main units which are mixing and production factory, storage areas and packaging factory.

Katre Agro has an annual production capacity of **80,000 tons** and an annual foreign trade potential of **\$50,000,000** to the four corners of the world.

Katre Agro has many years of experience in serving wholesalers and organized retailers in the domestic market and continues to grow with its developing business volume in addition to having the necessary infrastructure and experienced staff in this matter.

Katre Agro has an hourly packaging capacity of **10,000** packages and a daily packaging capacity of 80,000 packages.

Katre Agro can pack in different weights in different product ranges from 250 g to 5000 g packages, 10 kg to 25 kg bags/sacks under **KATZOO** and **MY KAJU** brands. The products within the scope of business of **Katre Agro** are processed and packaged in its state-of-the-art production line and then stored and shipped.

Quality Control and R&D Laboratories in the production facilities of **Katre Agro**, carry out quality control analyses of existing productions, preparation of new products and conformity analyses of all incoming raw materials for production.

In the process, which begins before the introduction of raw materials, the quality control analyses are carried out separately for the raw material, semi-finished and finished material stages of the production and their compliance is checked according to the specifications and guaranteed contents of the products.

With the state-of-the-art analysis methods, the most precise measurements are carried out and it is ensured that each product reach the end user in the most appropriate way in all aspects.

Ingredients: Millet Seeds, Safflower Seeds, Wheat, Sunflower Seeds, Canary Seeds, Bird Food and Colored Bread.

Package Content: 12 packages x 500 gr (6 kg)

KATZOO SUPPLEMENTARY PRODUCTS

CUTTLEFISH BONE

Derived from natural cuttlefish, cuttlebone provides natural calcium and minerals that are essential to caged birds. The hard, natural surface keeps beaks trim and sharp. The package includes a cage holder for easy installation. For parakeets, finches, and canaries

Sizes: 12 cm / 15 cm

Box Contents: 12 single and double packaging

BEAK STONE

Beak care is critical for the overall health of your bird. The beak is the entry for nutrients, and is used for climbing and playing. We can help promote beak health by ensuring your bird is getting all the nutrients he needs and detecting any problems early. Supplying beak conditioners that function as a chewing item and that contain essential minerals, like calcium, is a great idea, to help strengthen the keratin that makes up the beaks.

Types: Mineral / Calcium / Energy

Box Contents: 20 block stone

CRACKERS FOR BUDGIES

It is an easy to digest cracker made of natural and healthy grains for your budgie. Besides being a tasty treat for your bird, it is the easiest way to familiarize yourself.

Ingredients: Yellow Milletseed, White Milletseed, Red Milletseed, Black Milletseed, Sugar, Gelatin, Colorant (E-102 / Tartrazine)

Box Contents: 10 cracker with honey.
